

**Hear Technologies Introduces the MAD I/O Card**  
*Compatible with the Hear Back PRO and WSG Bridge*

**Sep 6, 2019**

Huntsville, AL – Hear Technologies' is expanding the Hear Back PRO 128-channel capable personal monitoring system by introducing MAD I (Multichannel Audio Digital Interface) to its interface card lineup. This digital audio I/O card is also compatible with the WSG Bridge. The MAD I card will transmit and receive up to 32 channels when used with the Hear Back PRO Hub and 64 channels when used with the WSG Bridge.

The MAD I Card featuring both fiber optical SFP and Coaxial MAD I inputs and outputs is compatible with sampling rates from 44.1 kHz to 192 kHz. Needing redundancy, this card offers input redundancy when using both optical and coaxial inputs simultaneously.

Hear Technologies proudly manufactures the MAD I Interface Card in the U.S. to continually ensure that our customers get the quality they have come to expect.

**About Hear Technologies**

Hear Technologies offers unique and affordable solutions for personal and professional monitoring systems. We provide options for everyone – from beginners to seasoned pros. Our digital solutions give everyone the mix they need to perform their best. We design our products with the user in mind, so Hear gear is easy to use right out of the box, while providing the best sound in the business. Whether or not you've used a personal monitor mixer, the straightforward layouts of our powerful systems make getting the right mix a quick and effortless experience. Hear Technologies sets the bar high for quality sound, breaking new ground in the market to provide our customers with peak pro audio performance.
